

Room by Room Checklist

Use this checklist to go through each room in your home. Survey the space. Look around and really see every single thing that makes up the space - the wall color, flooring, window treatments, furniture, pictures, momentos, books, magazines - every single thing.

Then write down what it's time to remove, repurpose or change.

This checklist becomes your to do list. It'll help you take directed, focused action so that your home becomes a true reflection of you, and your life.
